EXPERIENCE

Systems Technician: Uline Inc
April 2018 – Present
- Write and deploy scripts and automations for various break/fix scenarios and process improvements.
- Manage/Maintain over 1300 assets for a large-scale Enterprise.
- Act as the liaison for Executive/Department leadership.
- Facilitate inter-departmental meetings to promote transparency and efficiency.
- Manage enterprise scale projects: Windows 10 deployments [2018], Site-wide WiFi installation [2019], Server, network, and equipment upgrades [2020], prototyping Full Stack solutions for development projects using the MERN Stack [2021-2022]).

IT Consultant: Izzy's Ice Cream
April 2018 – March 2020
- Managed the overhaul of the company's entire IT Infrastructure, coordinating with vendors to ensure continuity of service, data integrity, and managing risk to the business.
- Created and successfully implemented more efficient solutions to several primary systems, including inventory methods and tracking, SharePoint interface design and process workflow, network infrastructure and agility, and application development.
- Create and maintain Standard Operating Procedures for IT related tasks and operations.
- Provide technical training and onboarding to staff, management, and owners as needed.

Driver / Director of Distribution / Executive Assistant / Network & Systems Administrator: Izzy's Ice Cream
July 2009 – April 2018
- Manage and coordinate projects across a 100+ person organization, with projects ranging in scale and scope.
- Directly impacted the growth of our wholesale division from 30 accounts in 2013 to over 100 accounts.
- Manage the entire onboarding process for all drivers (new or experienced) joining our team.
- Assist team members and owners with work needs: scheduling, data analysis, system/process development, and regulatory permit acquisition, meeting facilitation, and conflict resolution.
- Led and optimized delivery teams and routes to ensure consistency and customer satisfaction.
- Built and maintained relationships with all of our vendors, partners, and wholesale customers.
- Coordinated fleet logistics for catered events with large vendors.
